RASPERINI
REUNION
19-20 JUNE

**A unique scientific event
entirely dedicated to
Gingival Papilla and Innovative
Periodontal Approaches.**

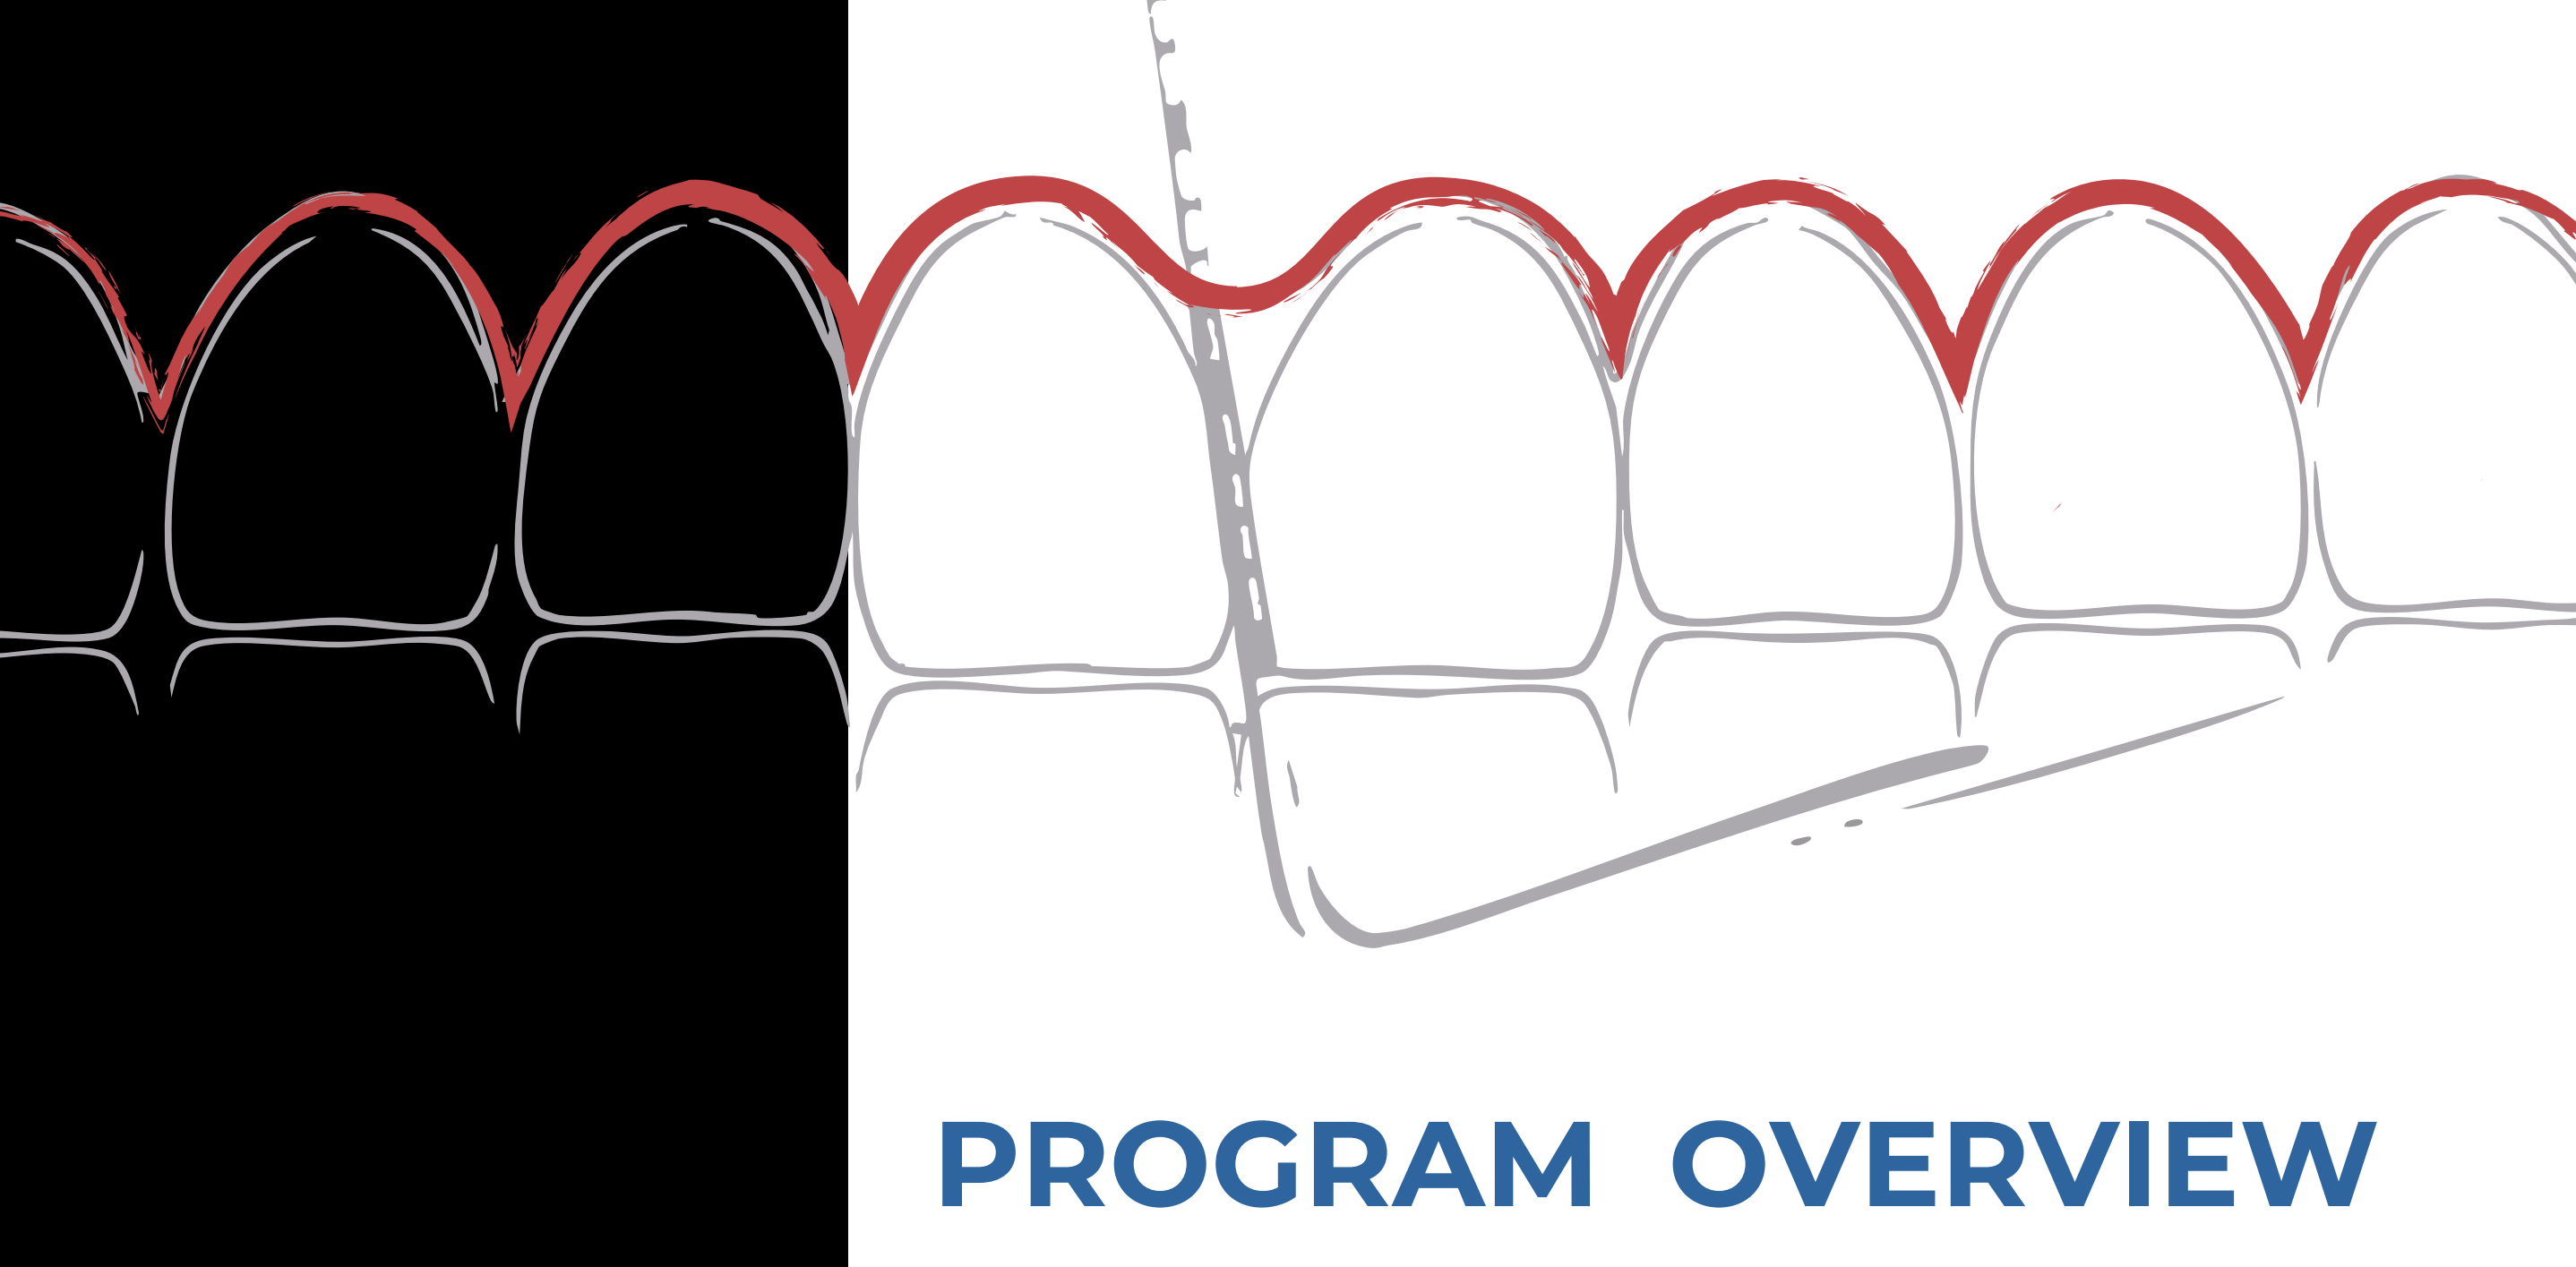

**With the best specialists
from around the world**

**Dr. Marcelo Faveri
Dr. Iñaki Gamborena
Dr. Emilia Kazarian
Dr. Po Jan Kuo
Dr. Yudai Ogawa
Dr. Masana Suzuki
Dr. Istvan Urban
Dr. Giovanni Zucchelli**

 **Brazil**
 **Spain**
 **Russia**
 **Taiwan**
 **Japan**
 **Japan**
 **Hungary**
 **Italy**

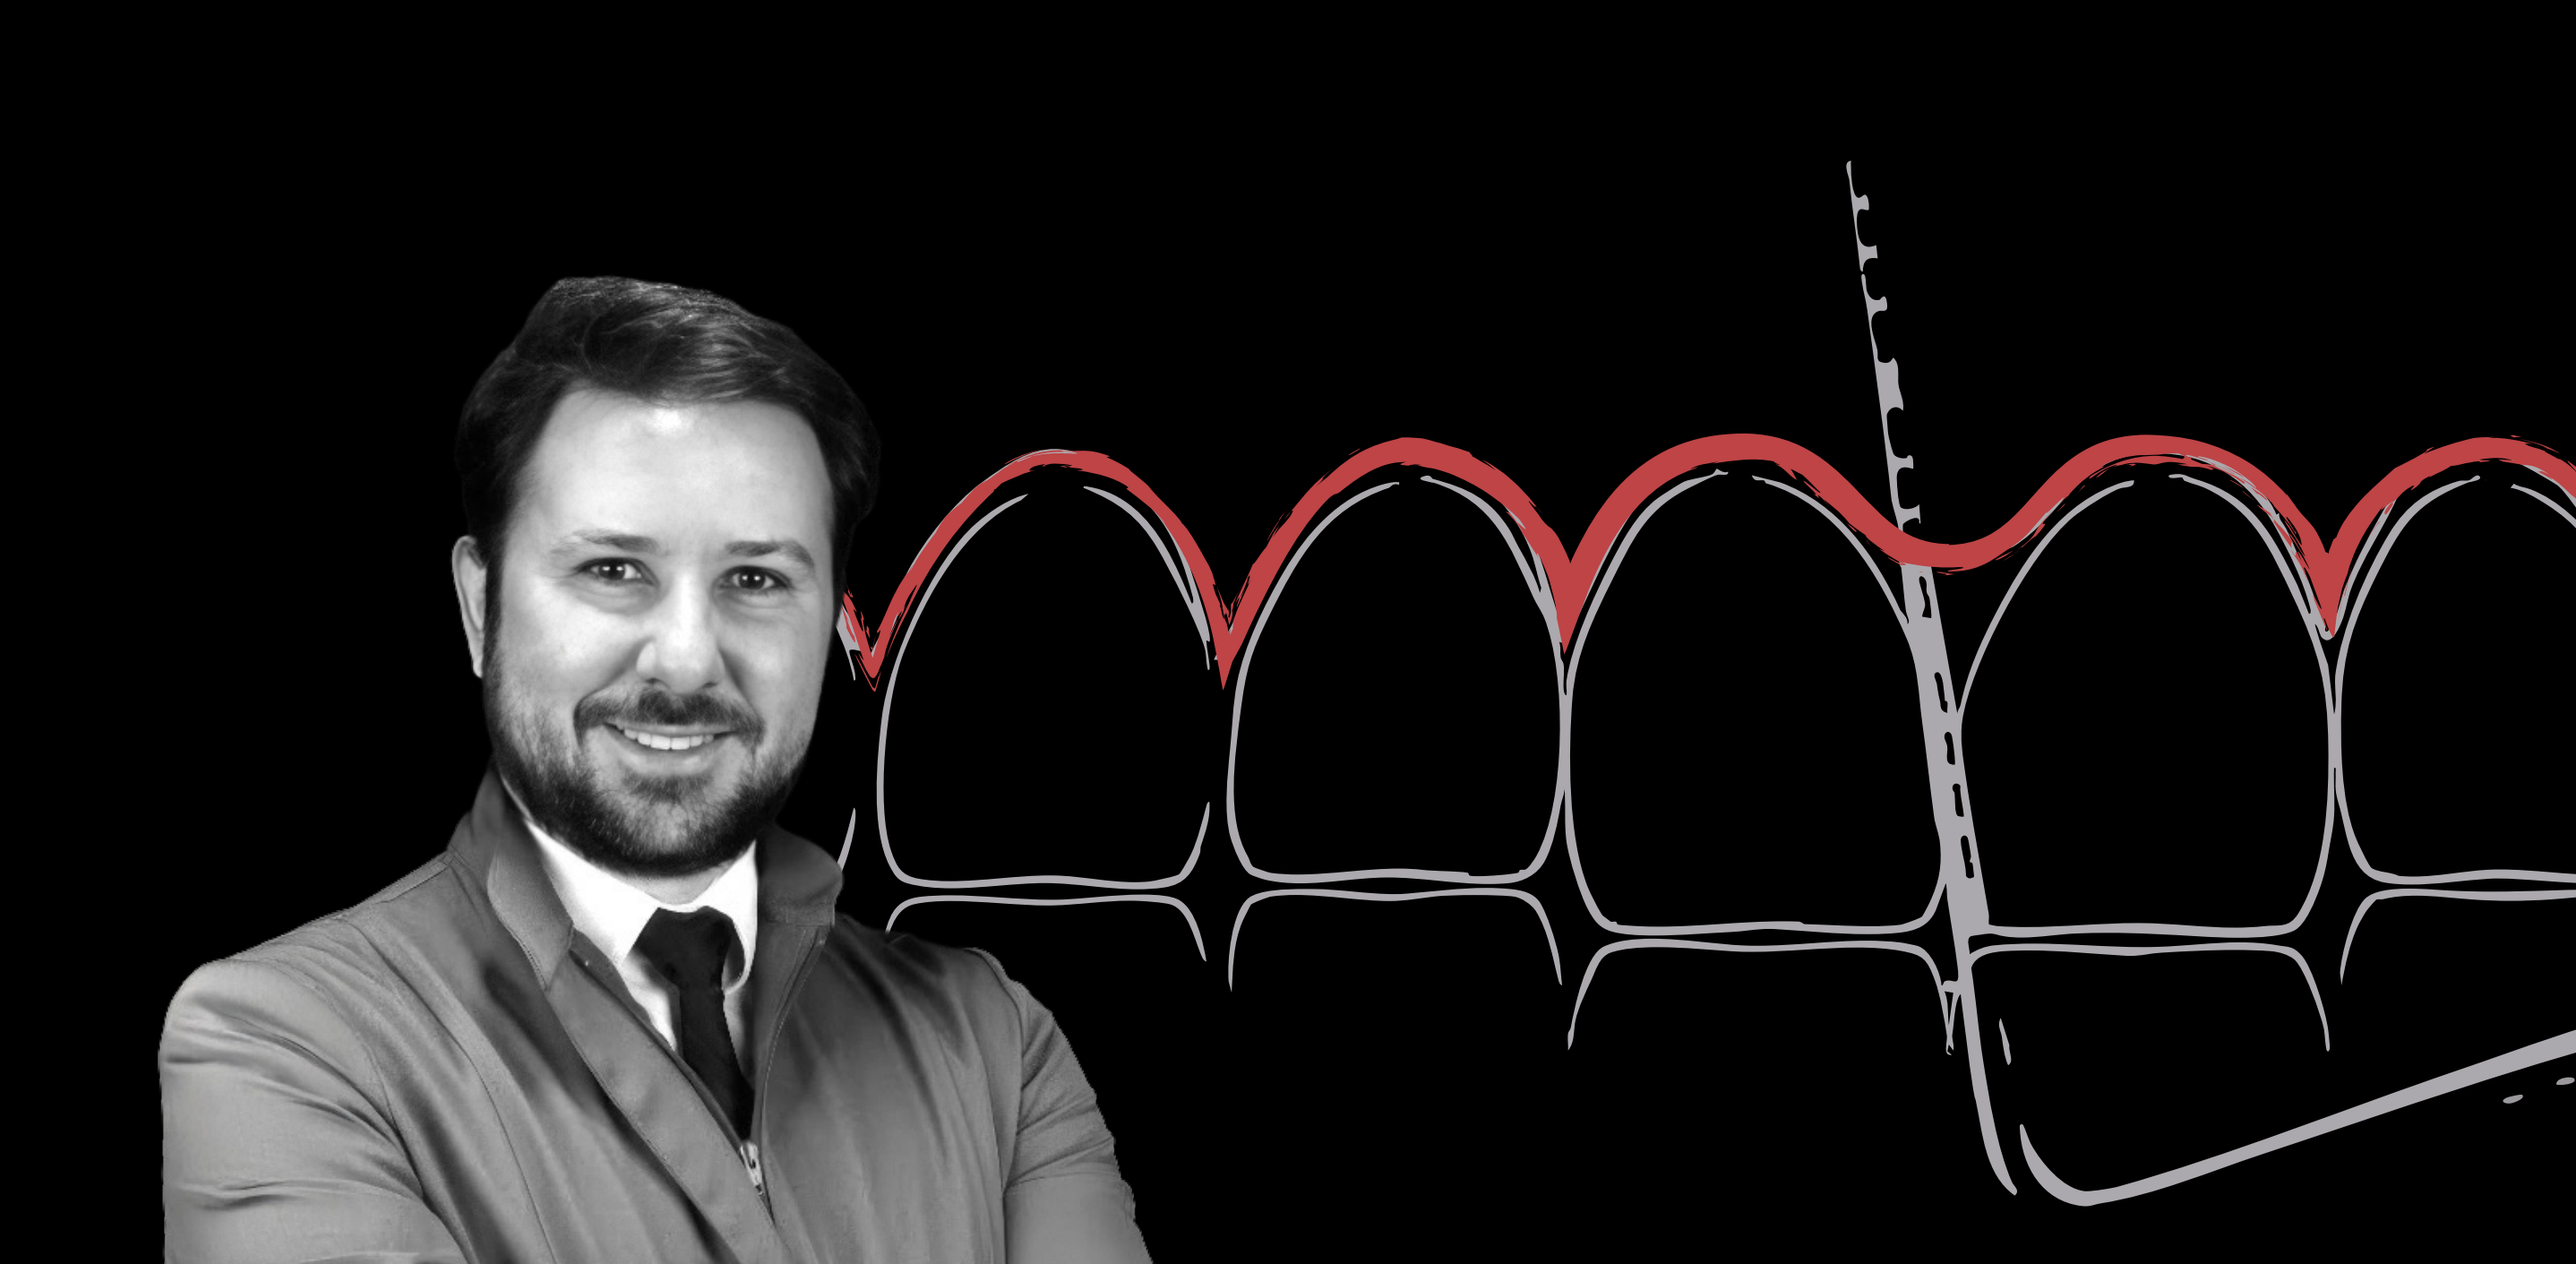

RASPERINI
REUNION
19-20 JUNE

PROGRAM OVERVIEW

WEDNESDAY, JUNE 17		Workshop DAY	
	09.00 - 13.00	Workshop Dr. Bryan Po-Jan Kuo	
	14.30 - 18.30	Workshop Dr. Emilia Kazarian	
THURSDAY, JUNE 18		Workshop DAY	
	09.00 - 13.00	Workshop Dr. Emilia Kazarian	
	14.30 - 18.30	Workshop Dr. Emilia Kazarian	
	14.30 - 18.30	PERIOMANAGMENT Workshop Dr. G.Pagni & Dr. M.Modoni	
FRIDAY, JUNE 19		Lecture DAY	
	09.00 - 10.00	Masana Suzuki	
	10.00 - 11.00	Emilia Kazarian	
	11.30 - 12.30	Yudai-Ogawa	
	14.30 - 15.30	Marcelo Faveri	
	16.00 - 17.00	Po-Jan Kuo	
	20.00 - 24.00	iPerio Social event	
SATURDAY, JUNE 20		Lecture DAY	
	09.00 - 10.00	Istvan Urban	
	10.00 - 11.00	Inaki Gamborena	
	11.30 - 12.30	Giovanni Zucchelli	
SATURDAY, JUNE 20		Workshop DAY	
	14.30 - 18.30	Workshop Dr. Masana Suzuki	
SUNDAY, JUNE 21		Workshop DAY	
	09.00 - 13.00	Workshop Dr. Masana Suzuki	

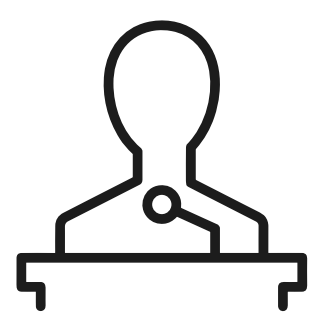

Marcelo de Faveri, DDS, MSc, PhD

Research Professor, Graduate Program in Dentistry –
Universidade Guarulhos, Brazil

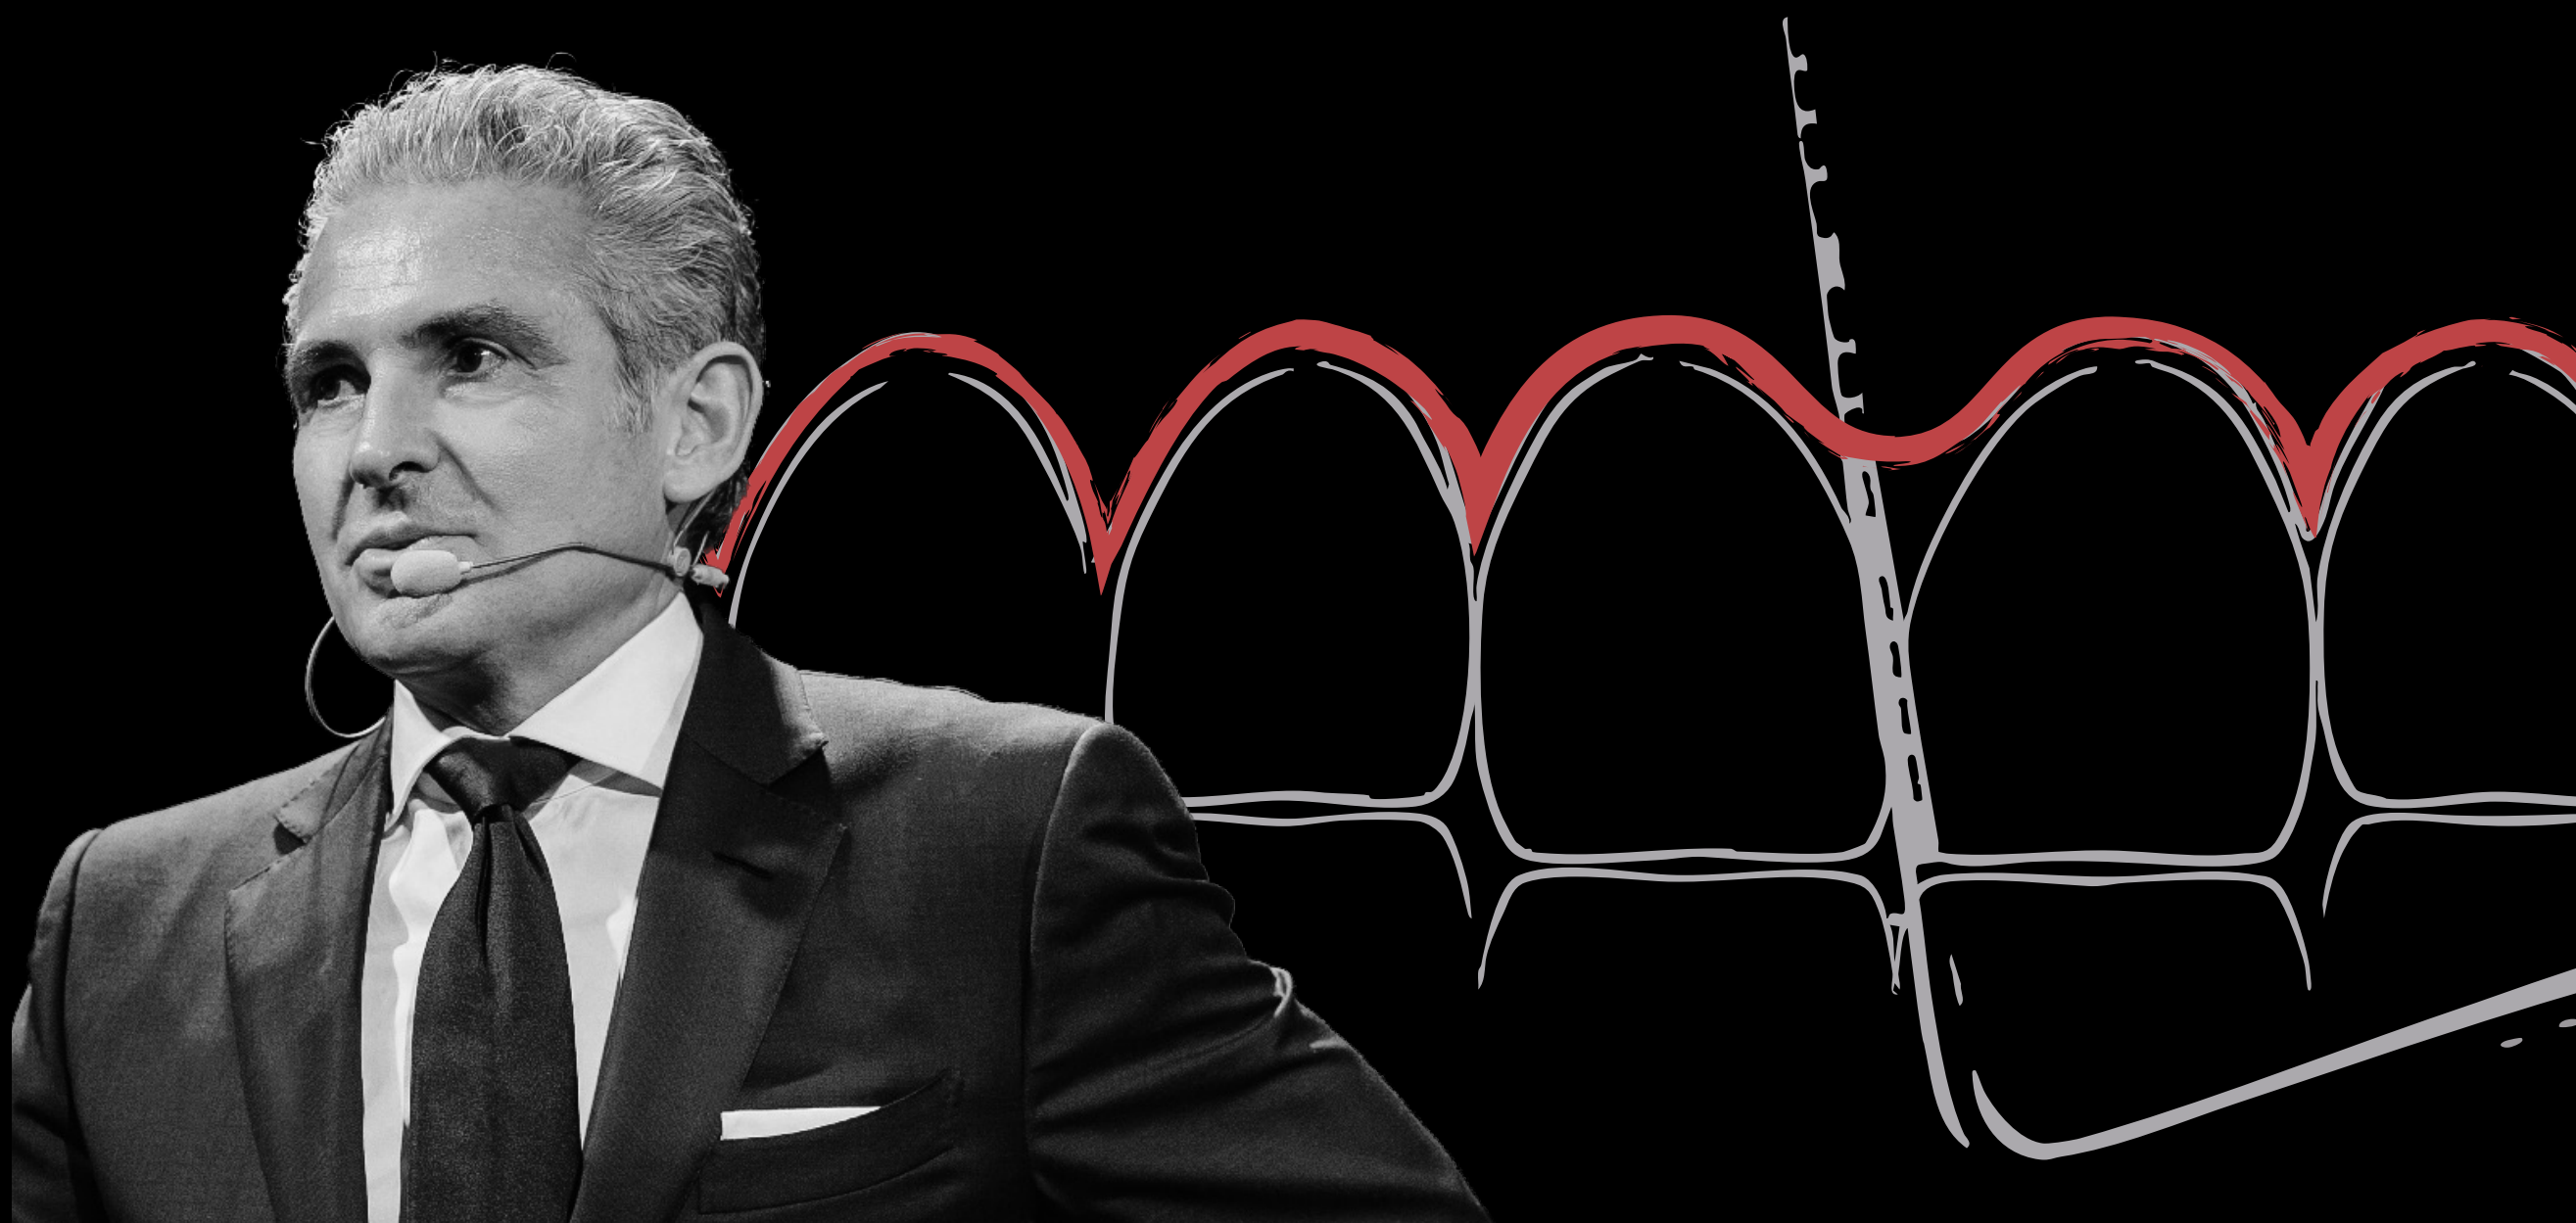

**Black Triangle Management:
Advanced Soft Tissue Grafting
for Esthetic Zone Rehabilitation**

Friday, June 19
14.30 - 15.30

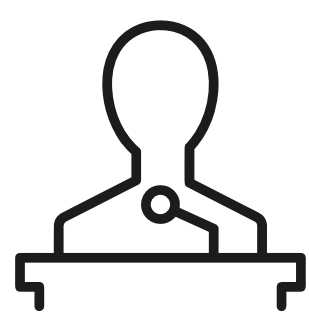

RASPERINI
REUNION
19-20 JUNE

Dr. Iñaki Gamborena

Papillae Reconstruction: Mastering Periodontal and Prosthetic Solutions for Teeth and Implants

Saturday, June 20

10.00 - 11.00

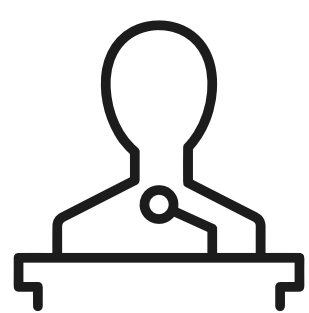

RASPERINI
REUNION
19-20 JUNE

Dr. Emilia Kazarian

**Paradigm shift in periodontology -
focus on the interproximal CAL regeneration.
The novel 3D Tunneling Surgical Technique (3DT)
for the treatment of gingival recessions with
reconstruction of deficient interdental papilla.**

Friday, June 19

10.00 - 11.00

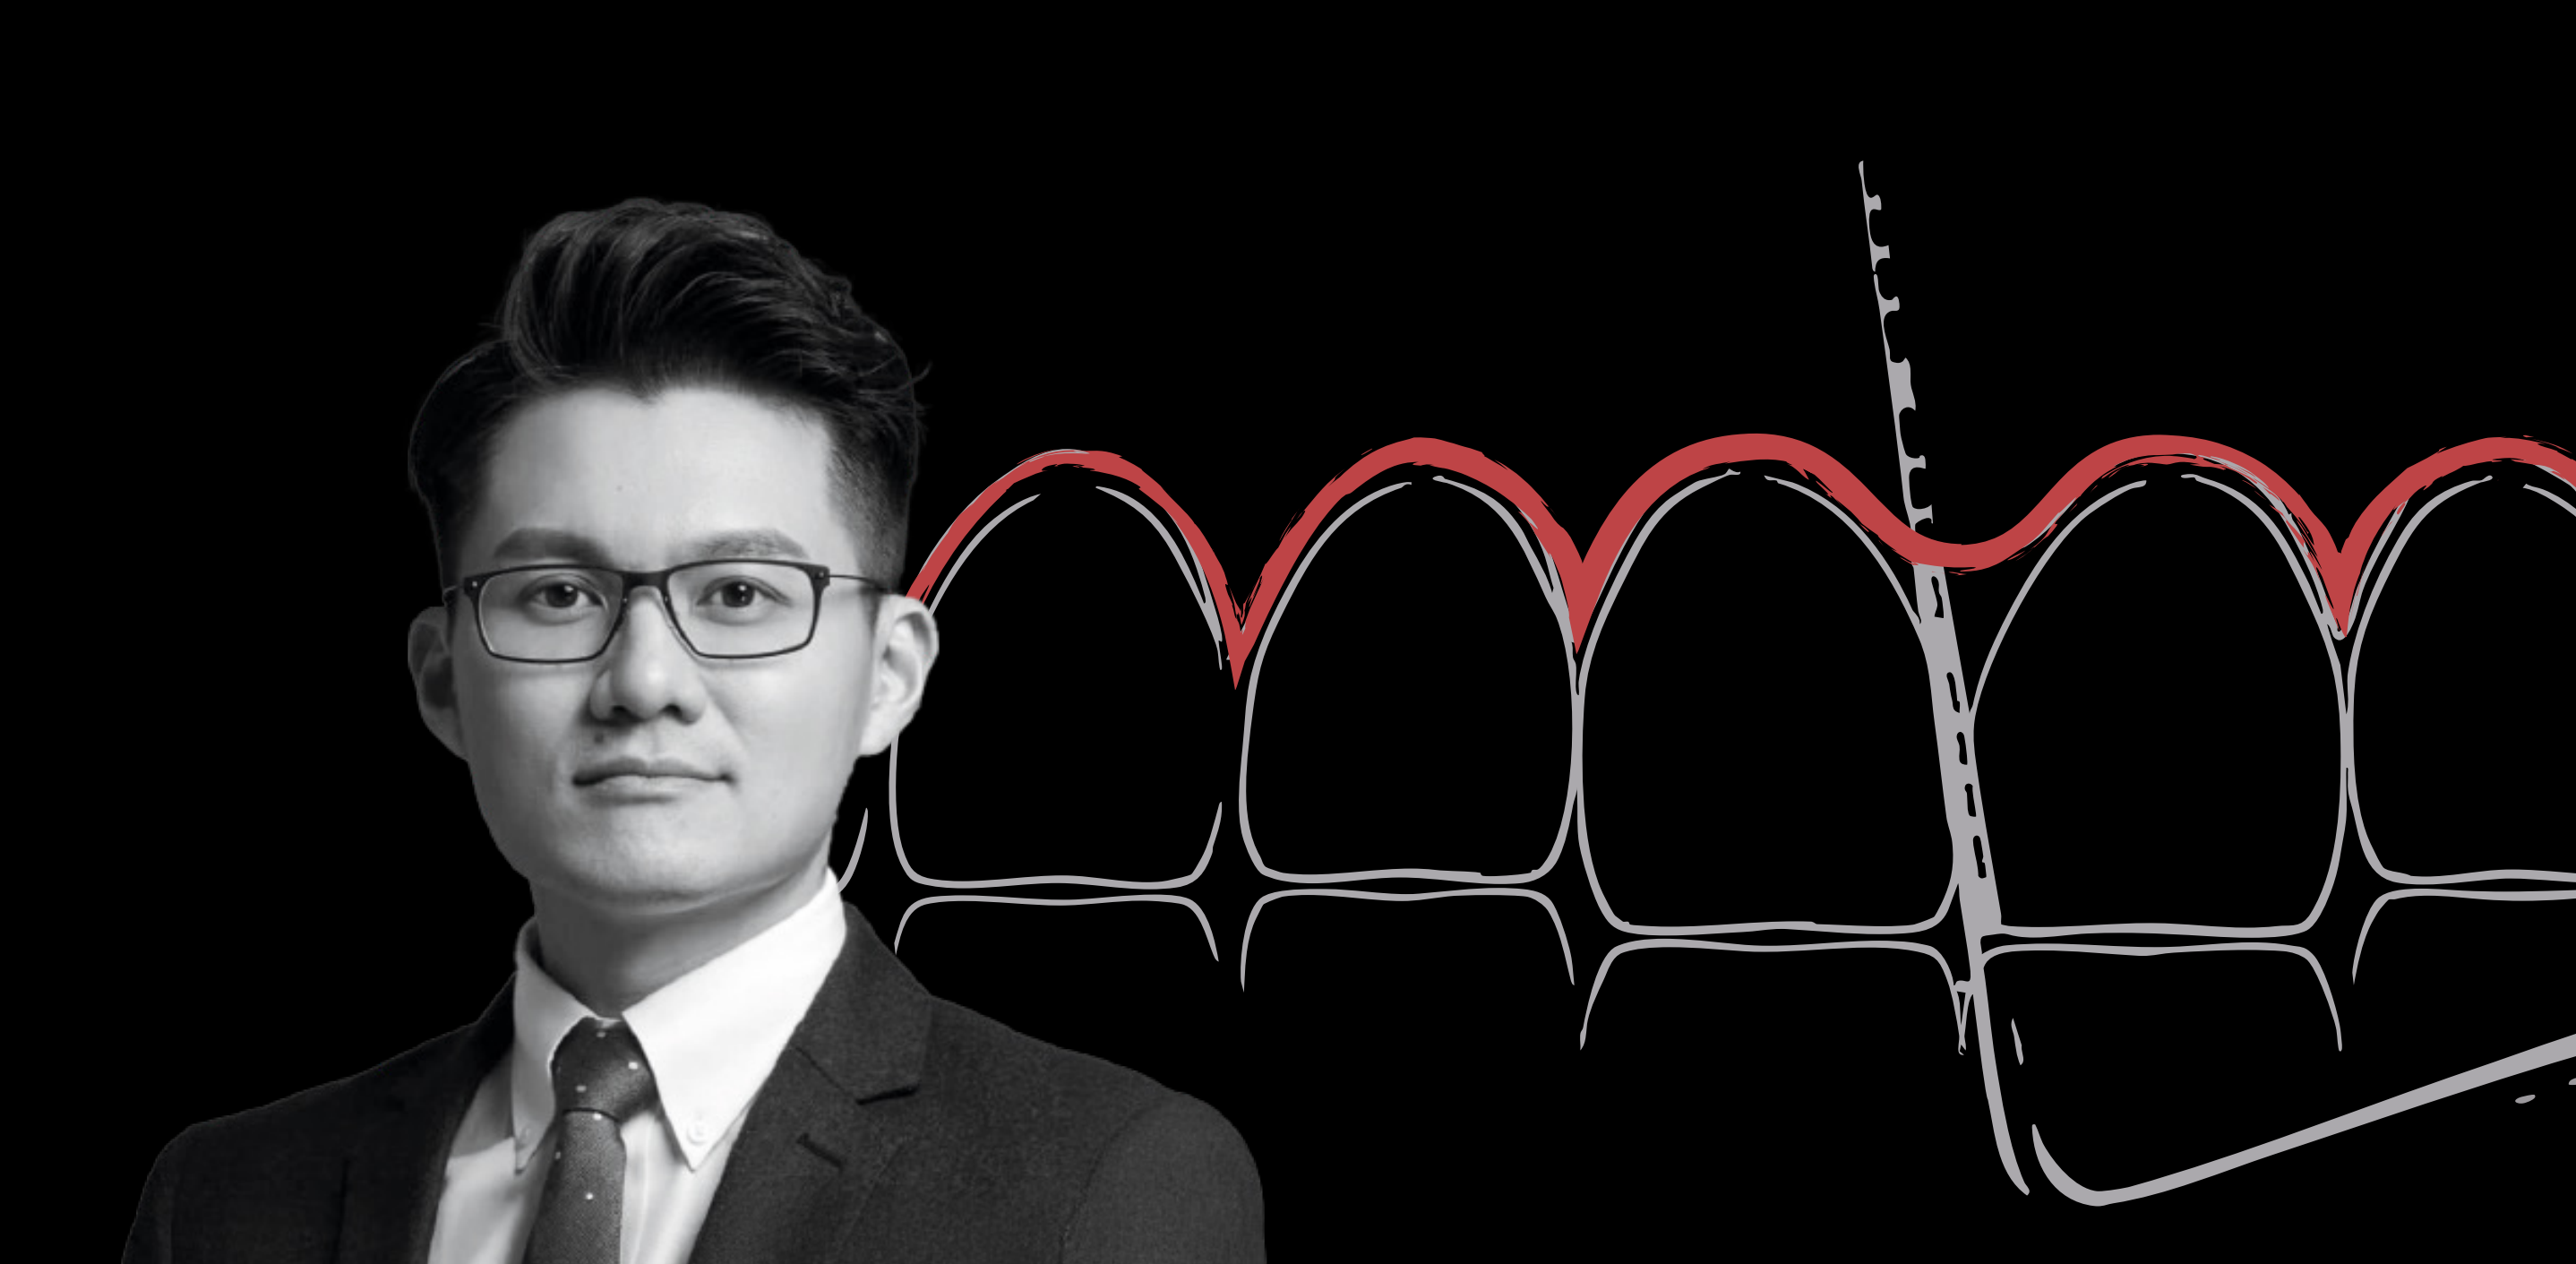

Before

After

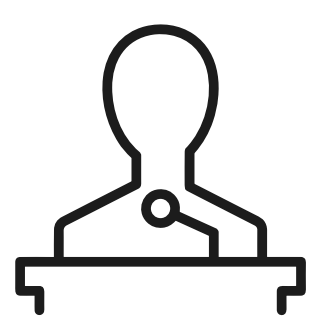

RASPERINI
REUNION
19-20 JUNE

Dr. Bryan Po-Jan Kuo

Rebuilding What Matters:
Partial-Full-Thickness Tunnel and
Supra-Crestal Sling Suture for Root Coverage
and Papilla Enhancement

Friday, June 19
16.00 - 17.00

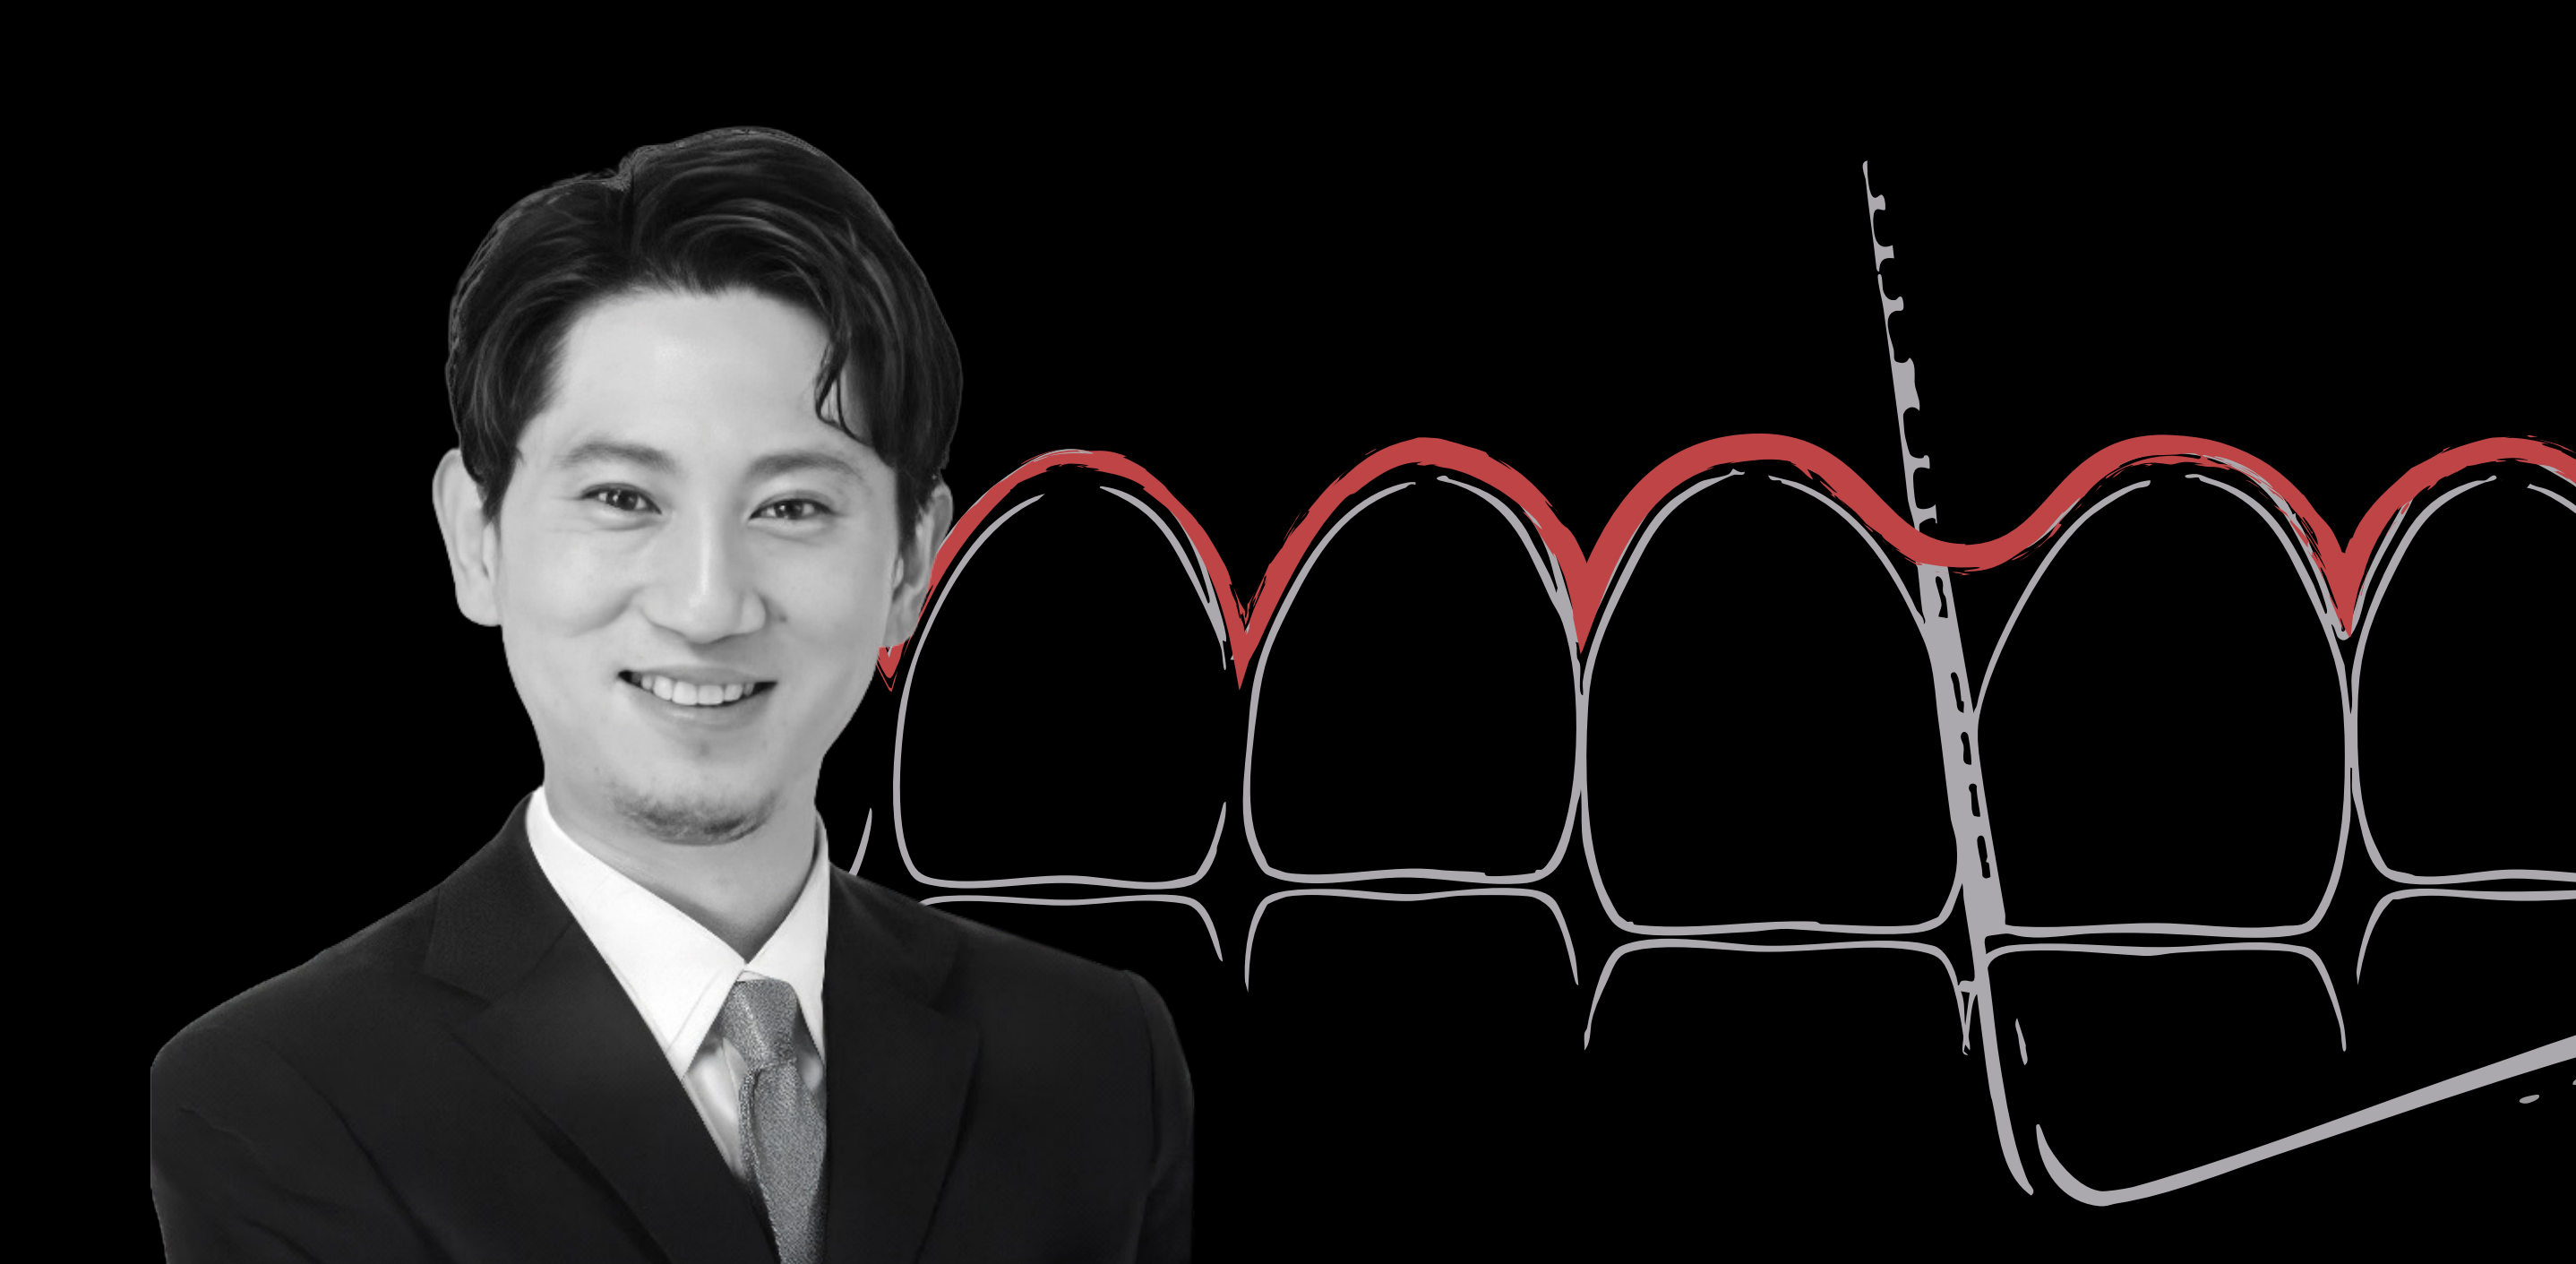

Before

After

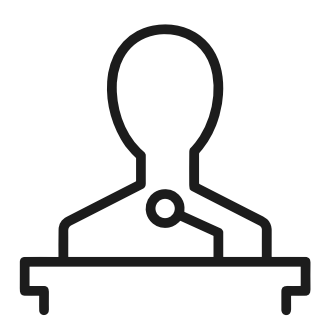

RASPERINI
REUNION
19-20 JUNE

Dr. Yudai-Ogawa

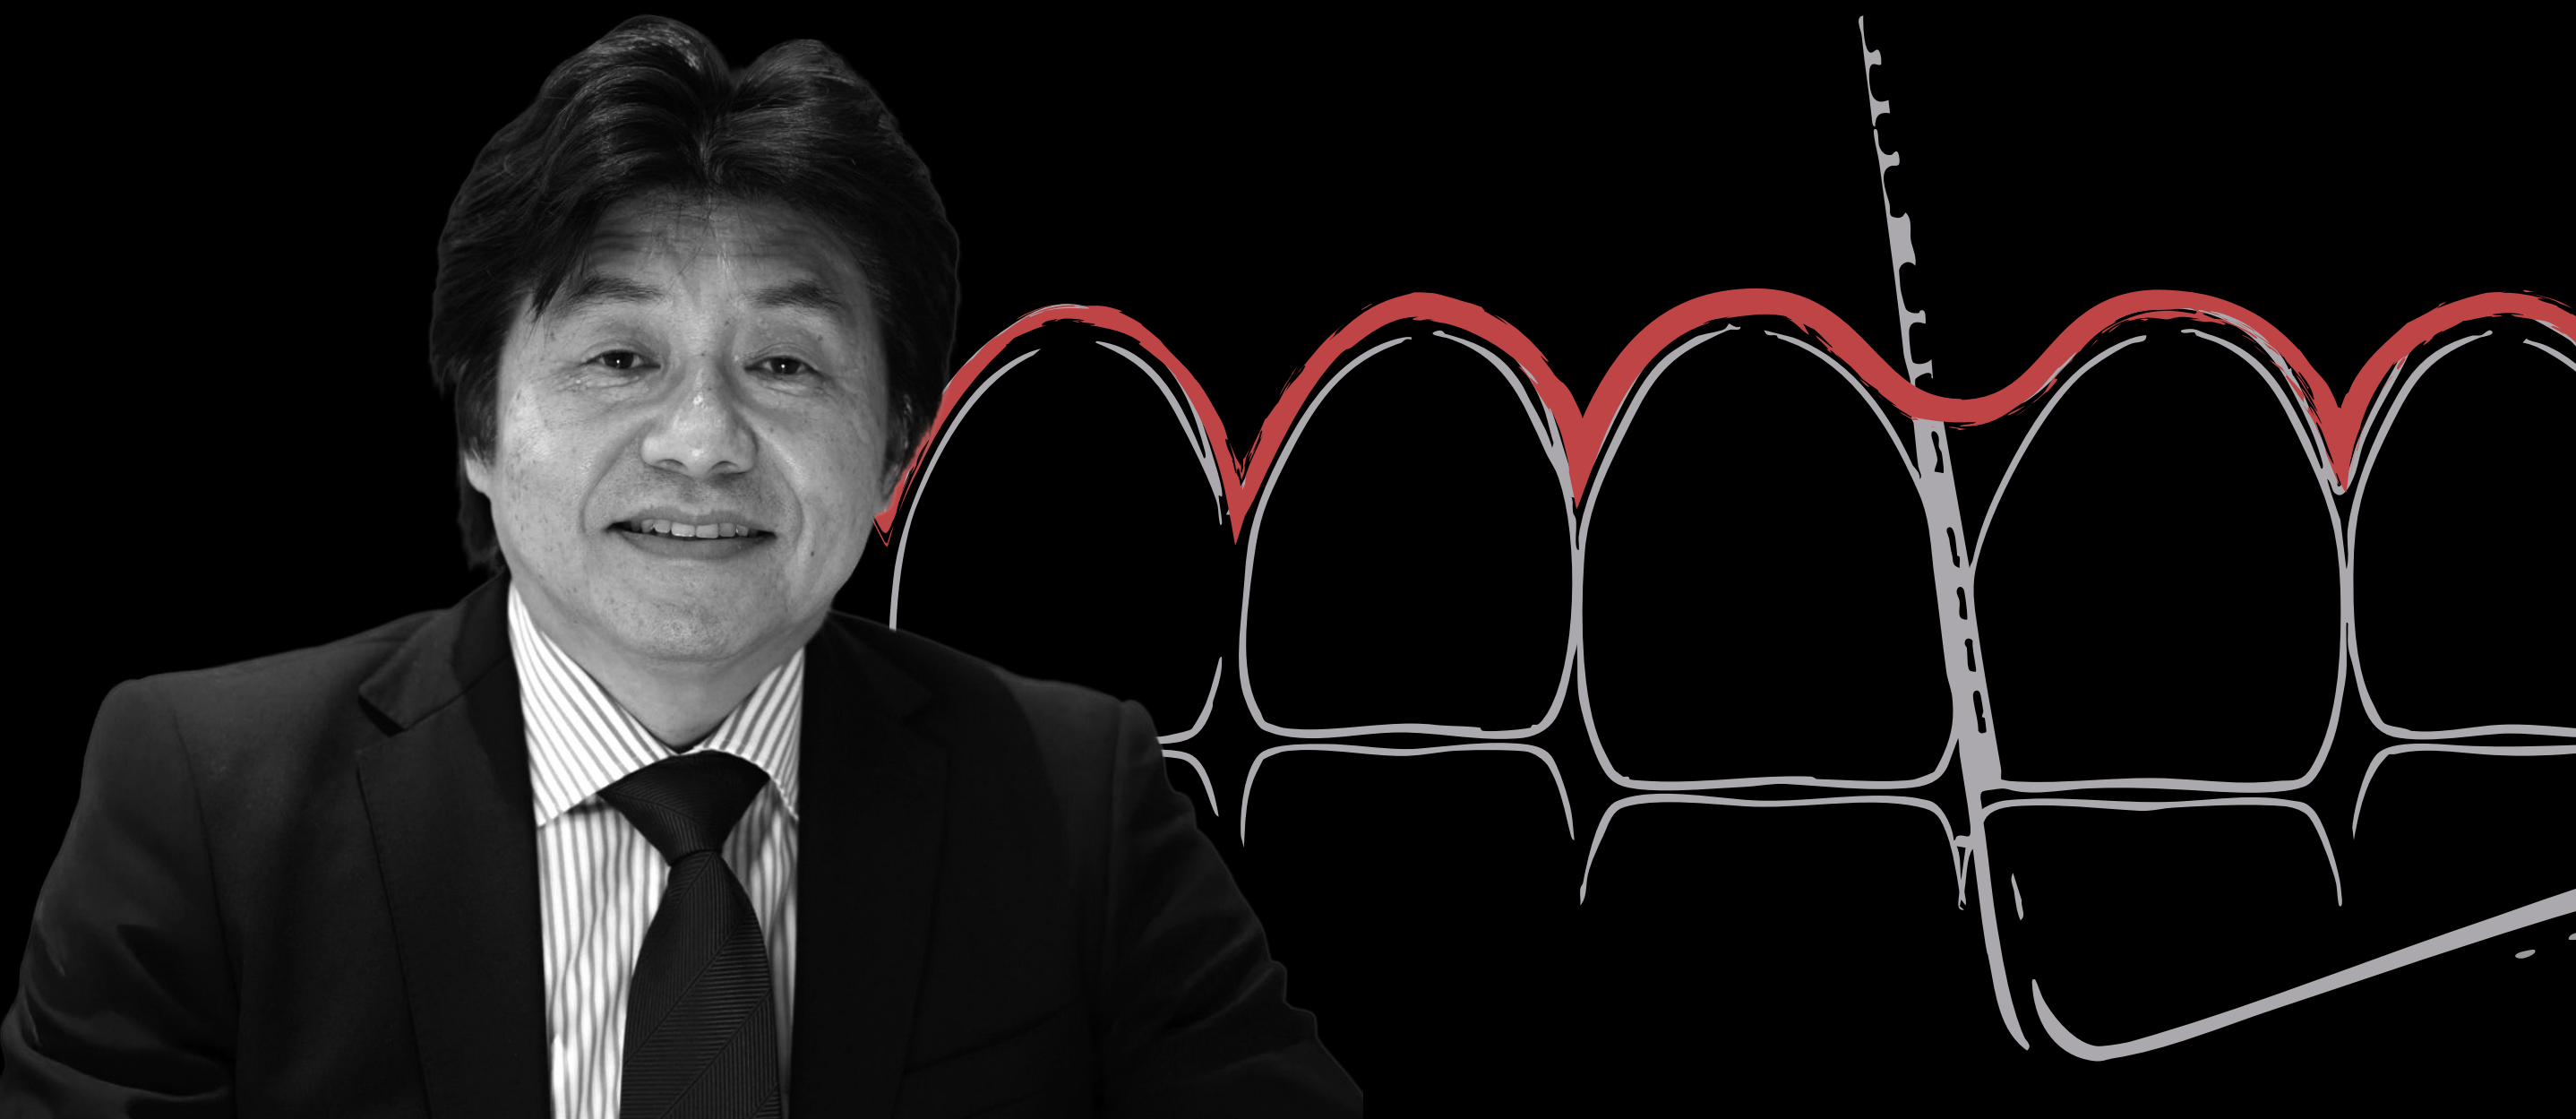

Evolving Papilla Reconstruction:
Interdisciplinary Decision-Making,
Novel Periodontal Techniques,
and Esthetic Implant Strategies

Friday, June 19
11.30 - 12.30

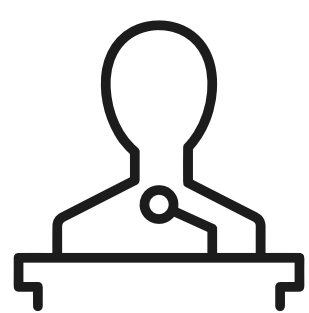

RASPERINI
REUNION
19-20 JUNE

Dr. Masana Suzuki

Papilla reconstruction for aesthetic restorations

Friday 19 June
09.00 - 10.00

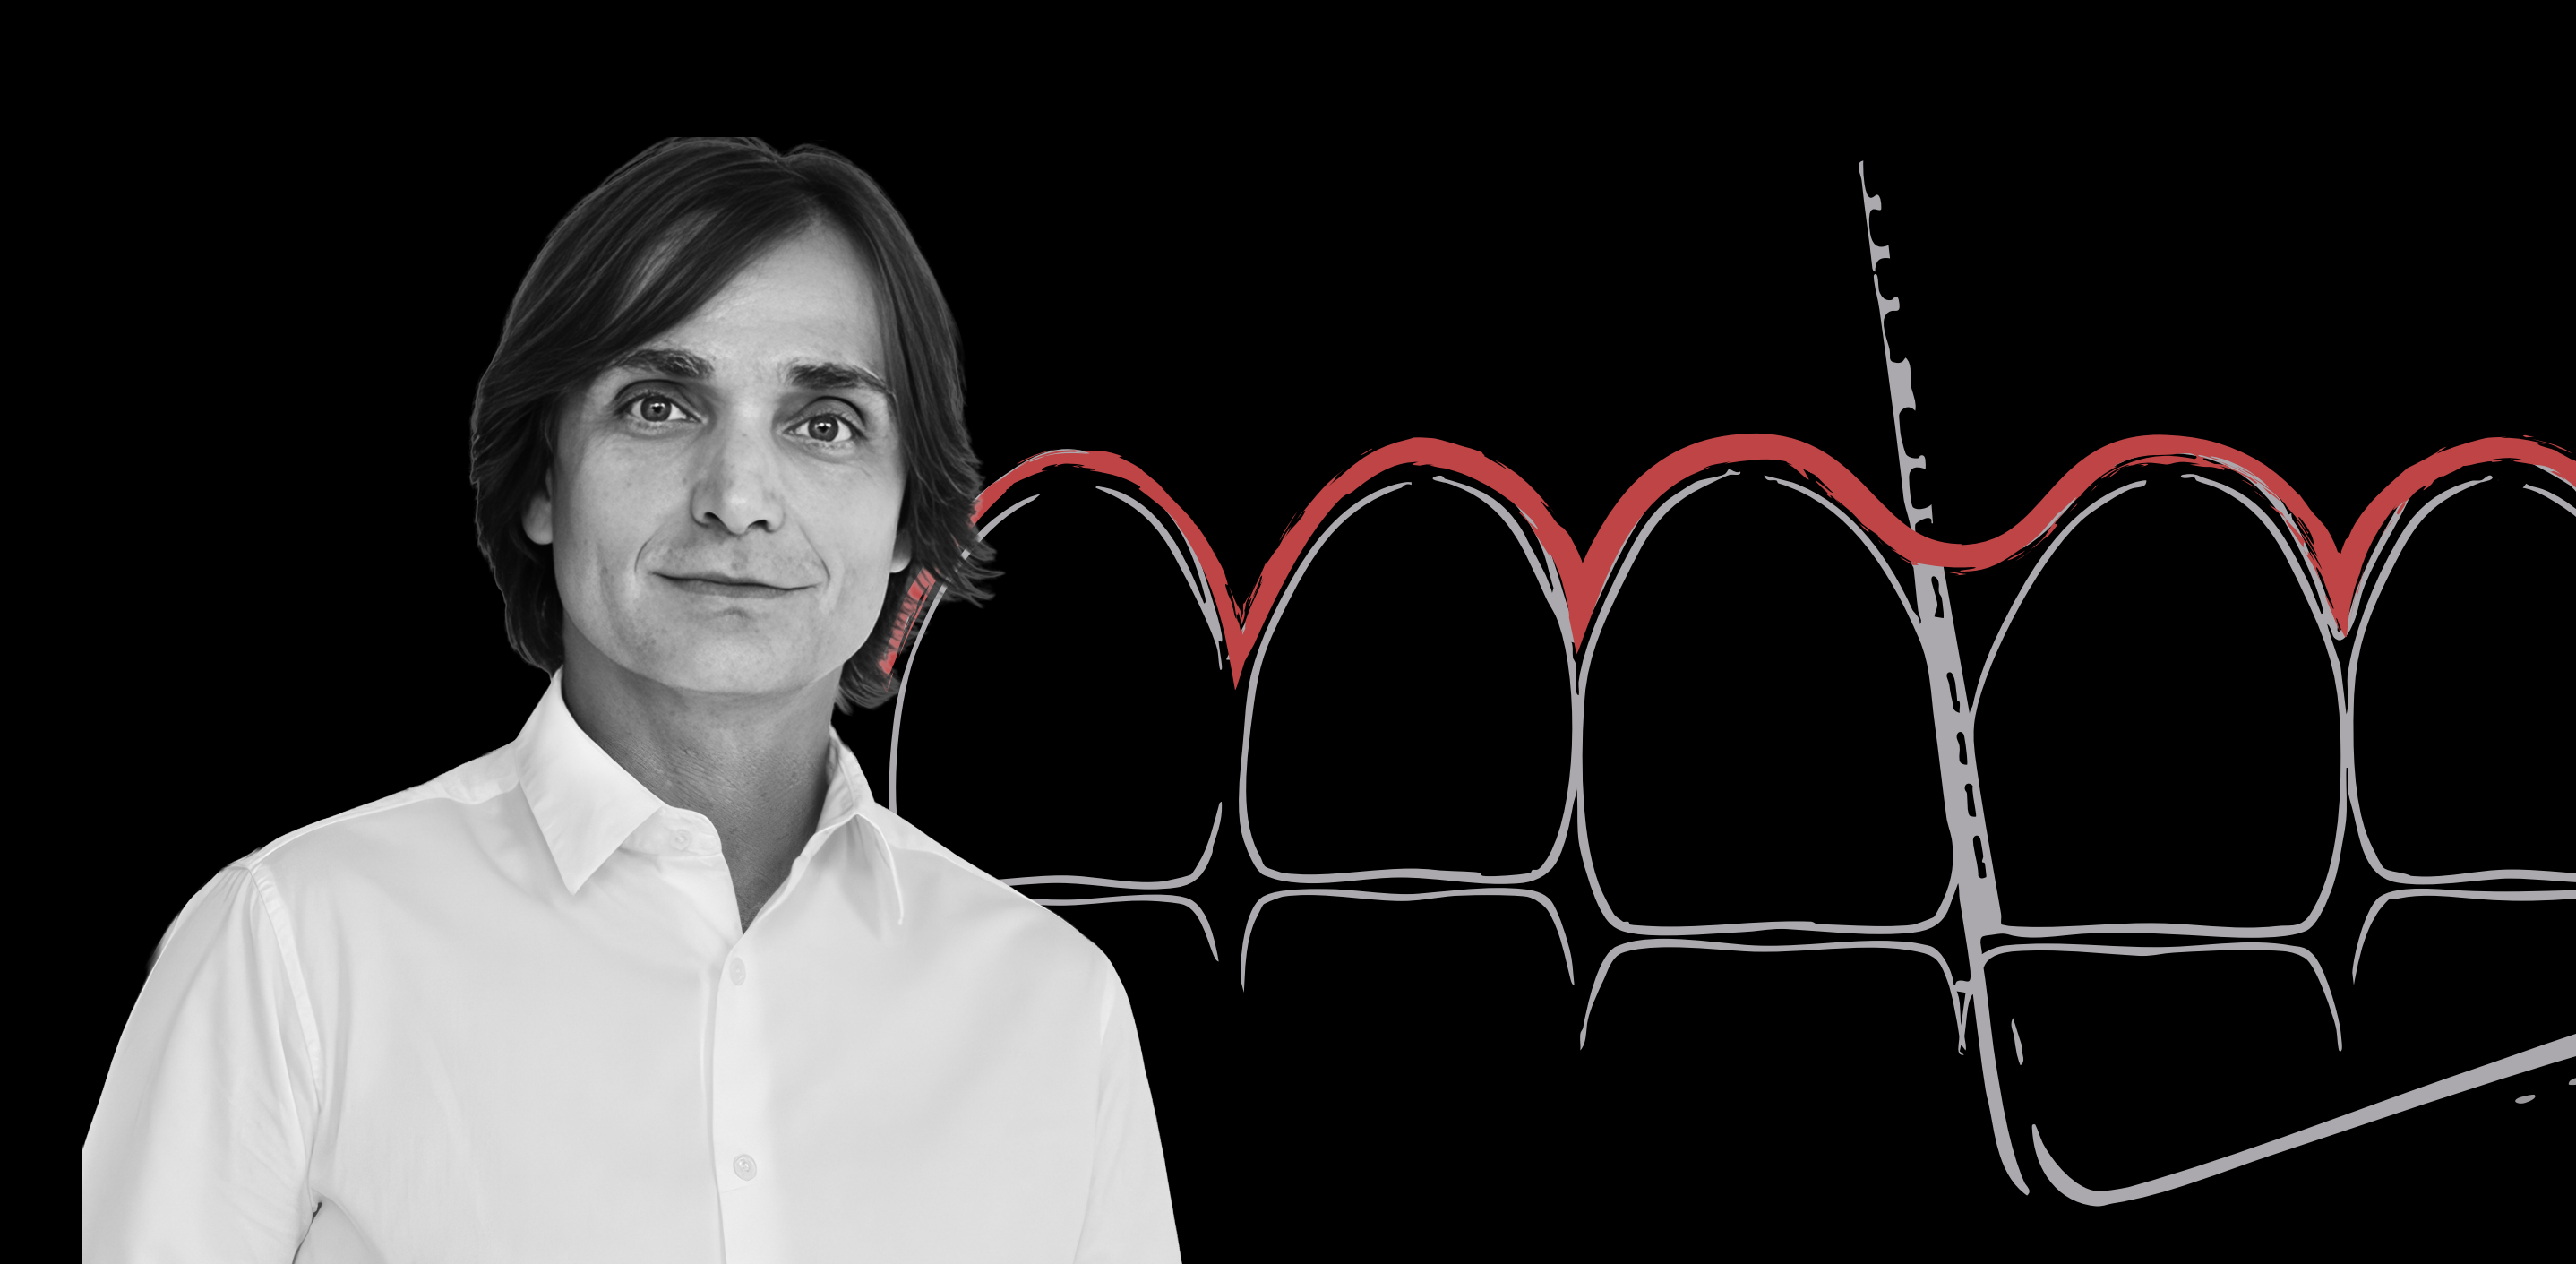

Before

After

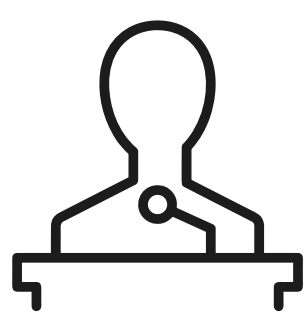

RASPERINI
REUNION
19-20 JUNE

Dr. Istvan Urban

The Reconstruction of the Peri and Inter-implant Papilla using bone and soft tissue grafts

Saturday, June 20

09.00 - 10.00

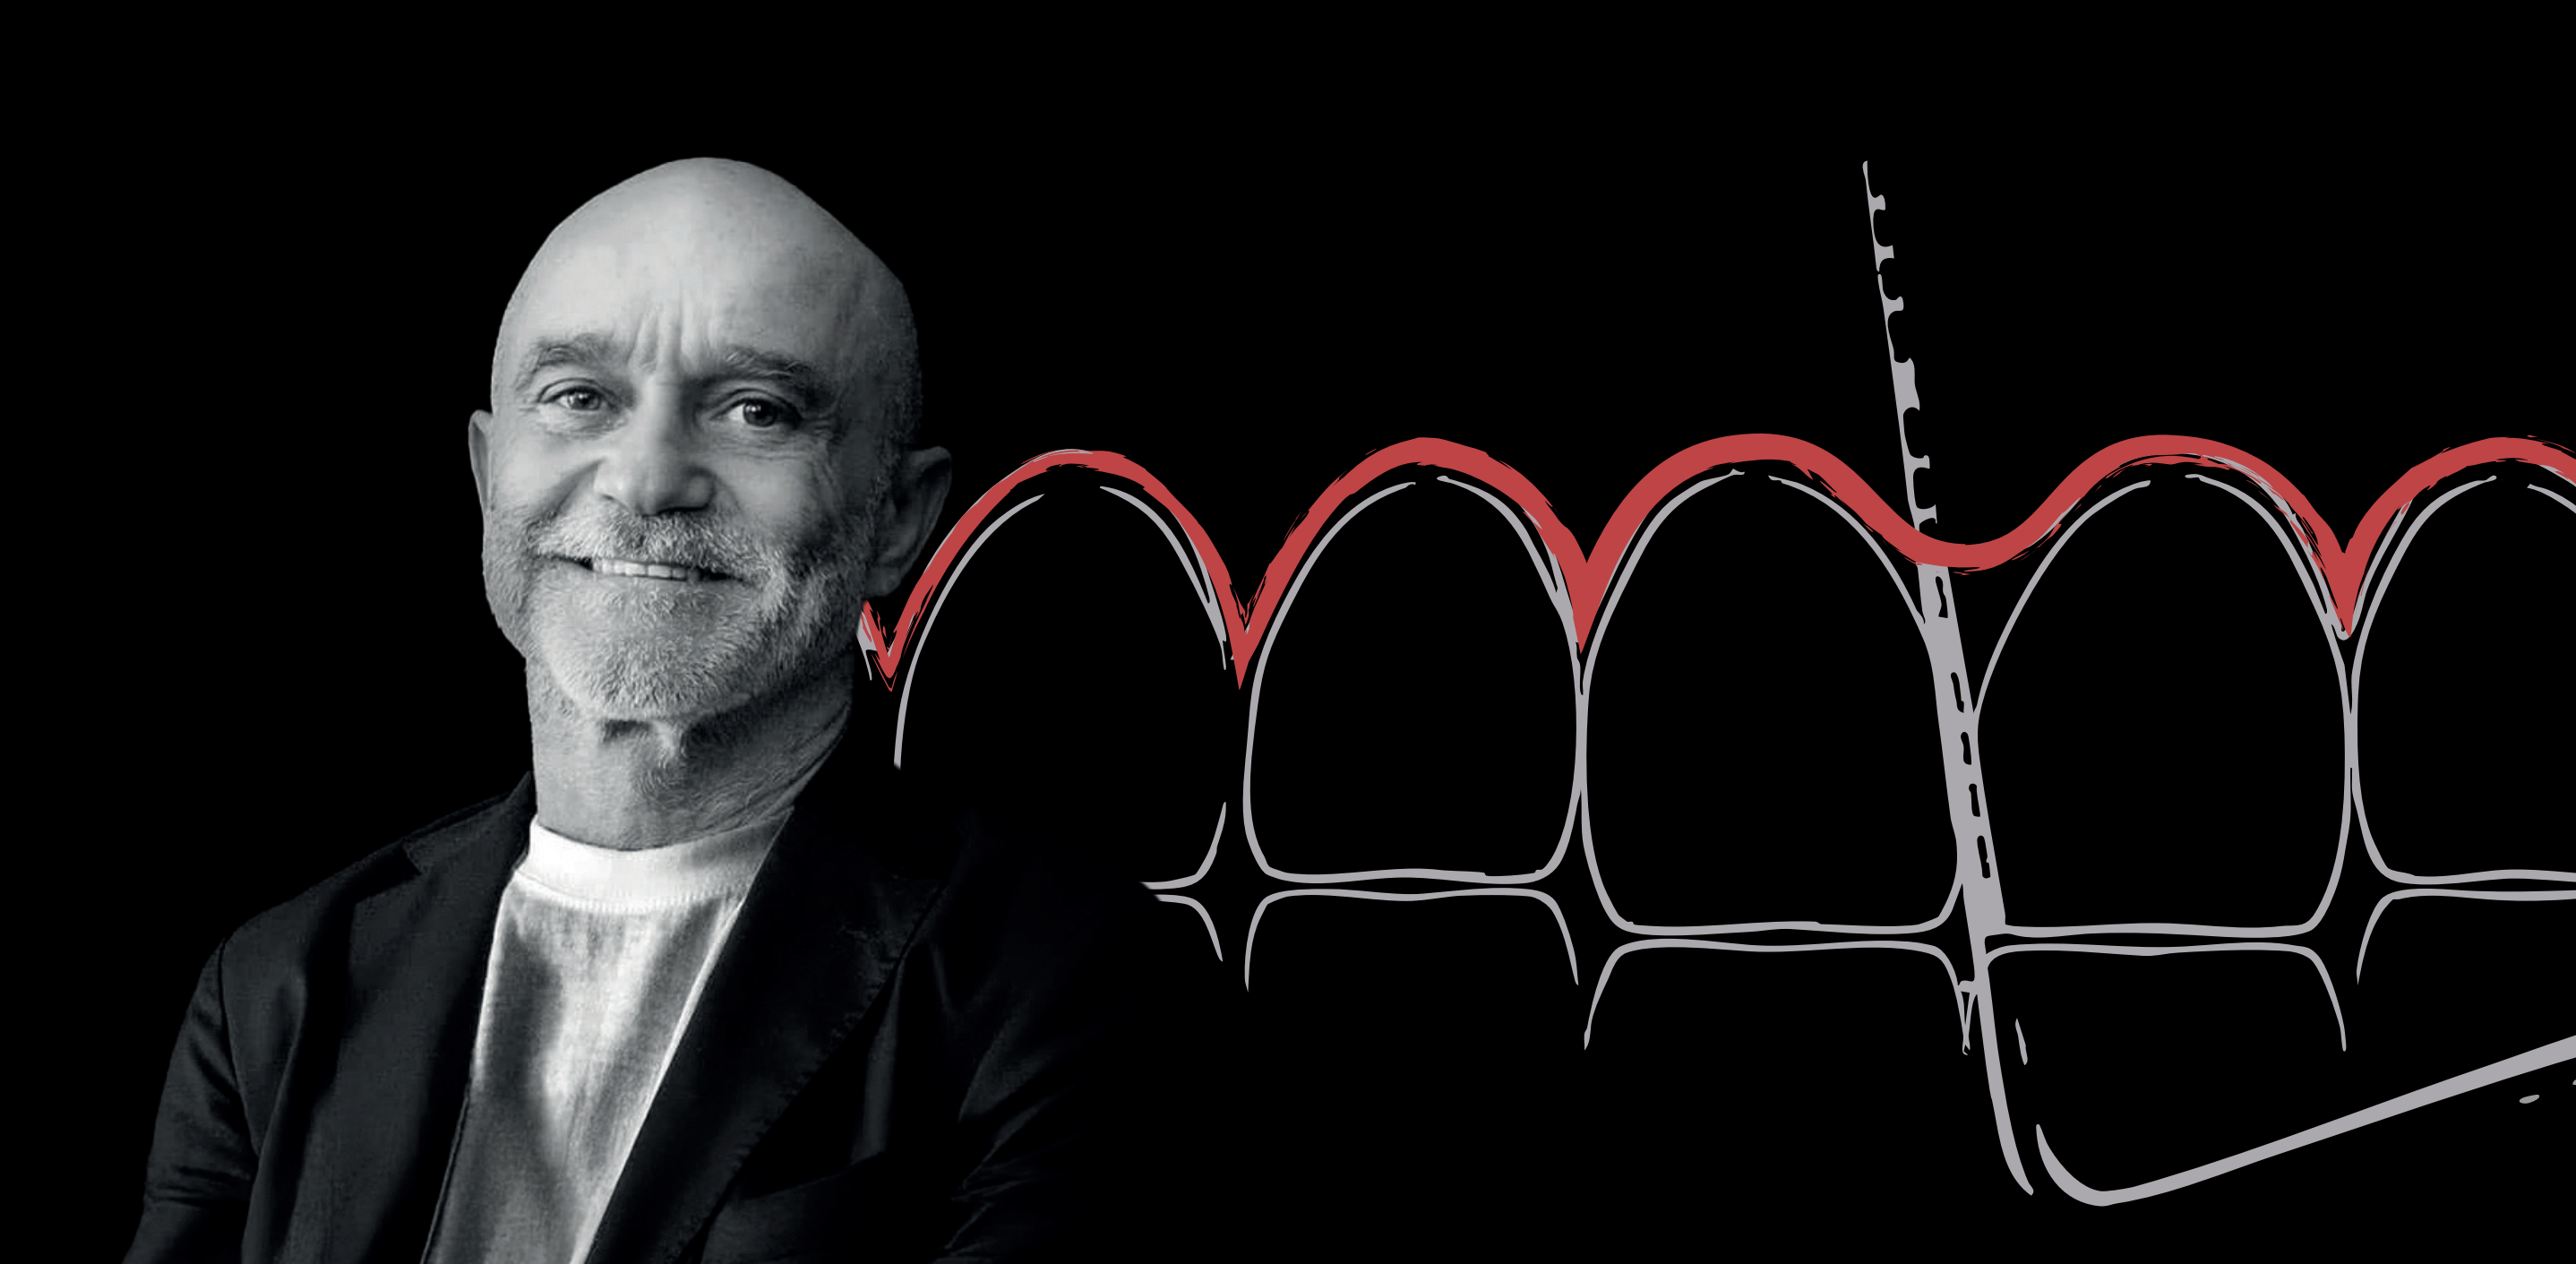

Before

After

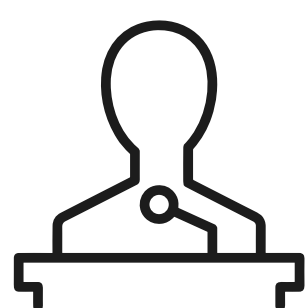

RASPERINI
REUNION
19-20 JUNE

Dr. Giovanni Zucchelli

**Soft tissue management
for peri-implant papilla reconstruction**

Saturday 20 June
11.30 - 12.30

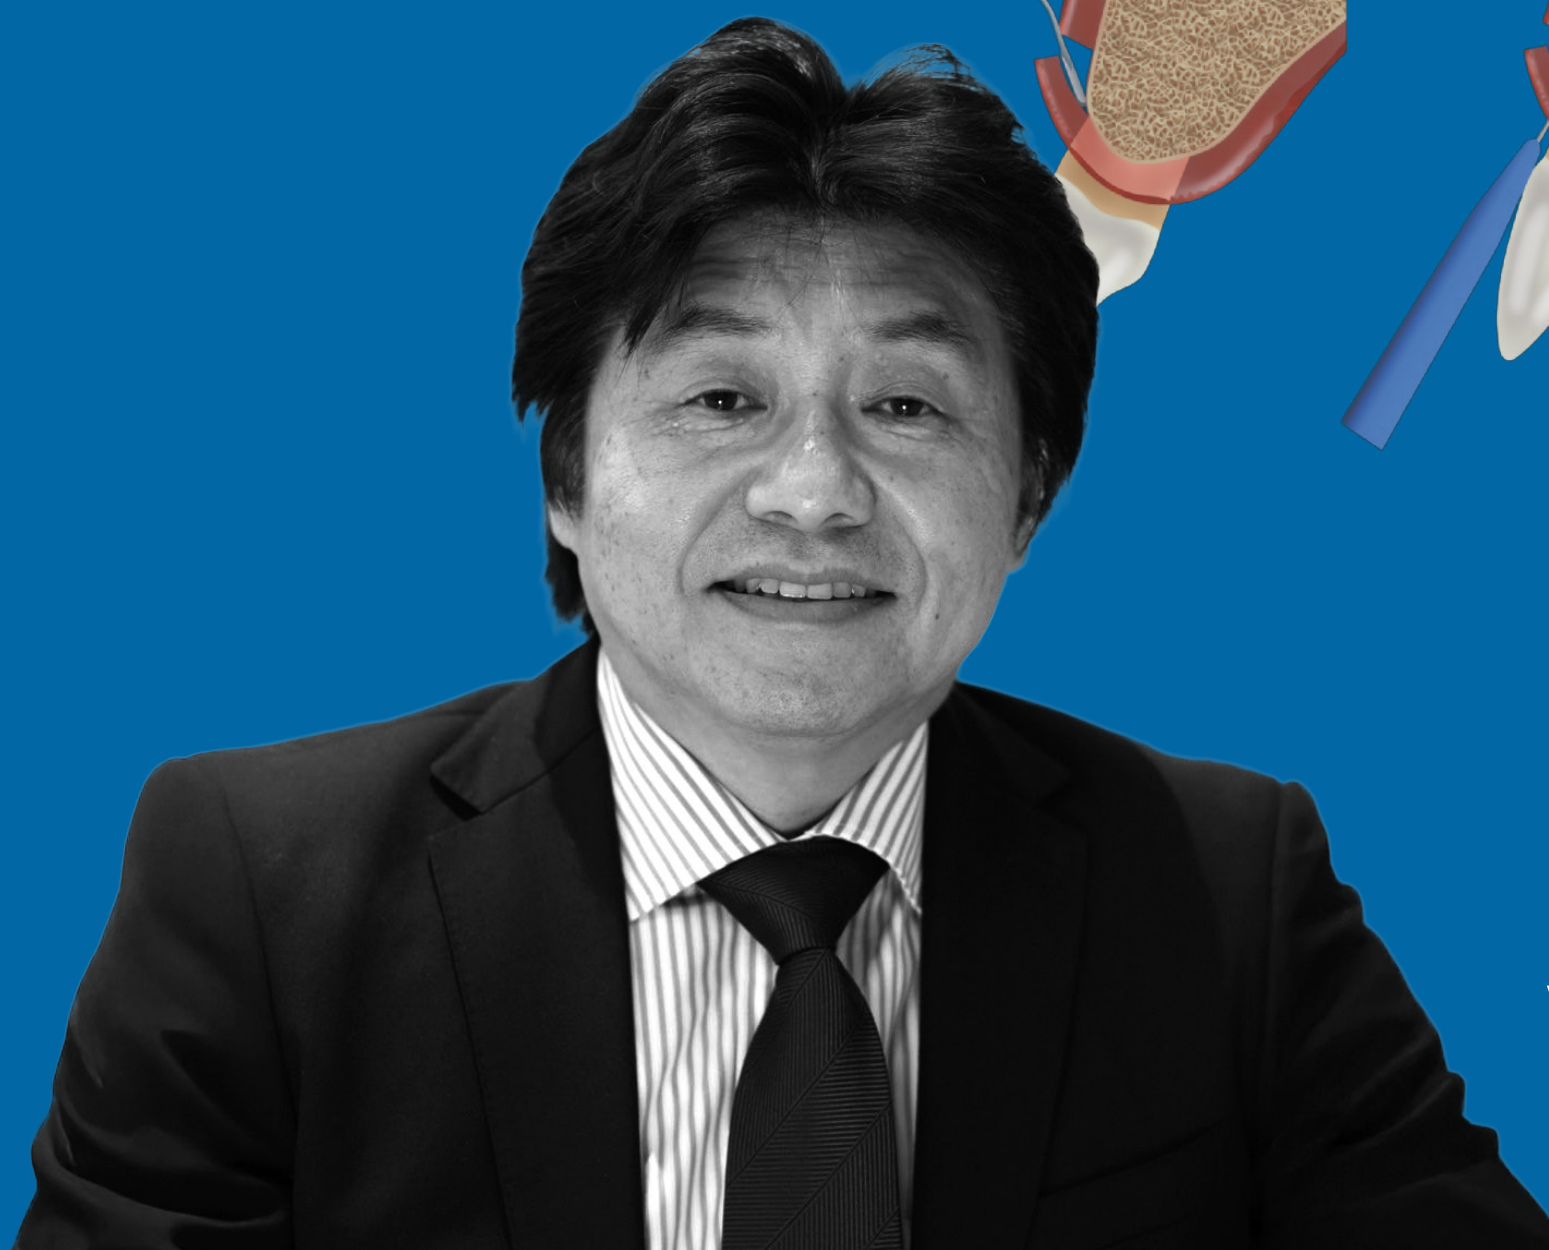

Before

After

RASPERINI
REUNION
19-20 JUNE

WORKSHOP

Dr. Masana Suzuki

20 JUNE | 14.30 - 18.30

21 JUNE | 09.00 - 13.00

INTER-DENTAL PAPILLA RECONSTRUCTION

- PRACTICE ON IPAC TECHNIQUE
- HARVESTING OF CTG FROM PALATE
- PRACTICE ON INTER-PROXIMAL POUCH APPROACH USING CTG (IPAC TECHNIQUE)

In this workshop, I will explain you the Inter-proximal Pouch Approach using C.T.G (IPACT Technique) which I started in the year 2000 by using the original training model. First step is to harvest a CTG from palatal site by applying the single incision technique. Attendants will challenge some of key essences during this procedure. The next step is to trim the harvested CTG in the shape of the recipient site (papilla) and to transplant it. Attendants will challenge these procedures in step by step.

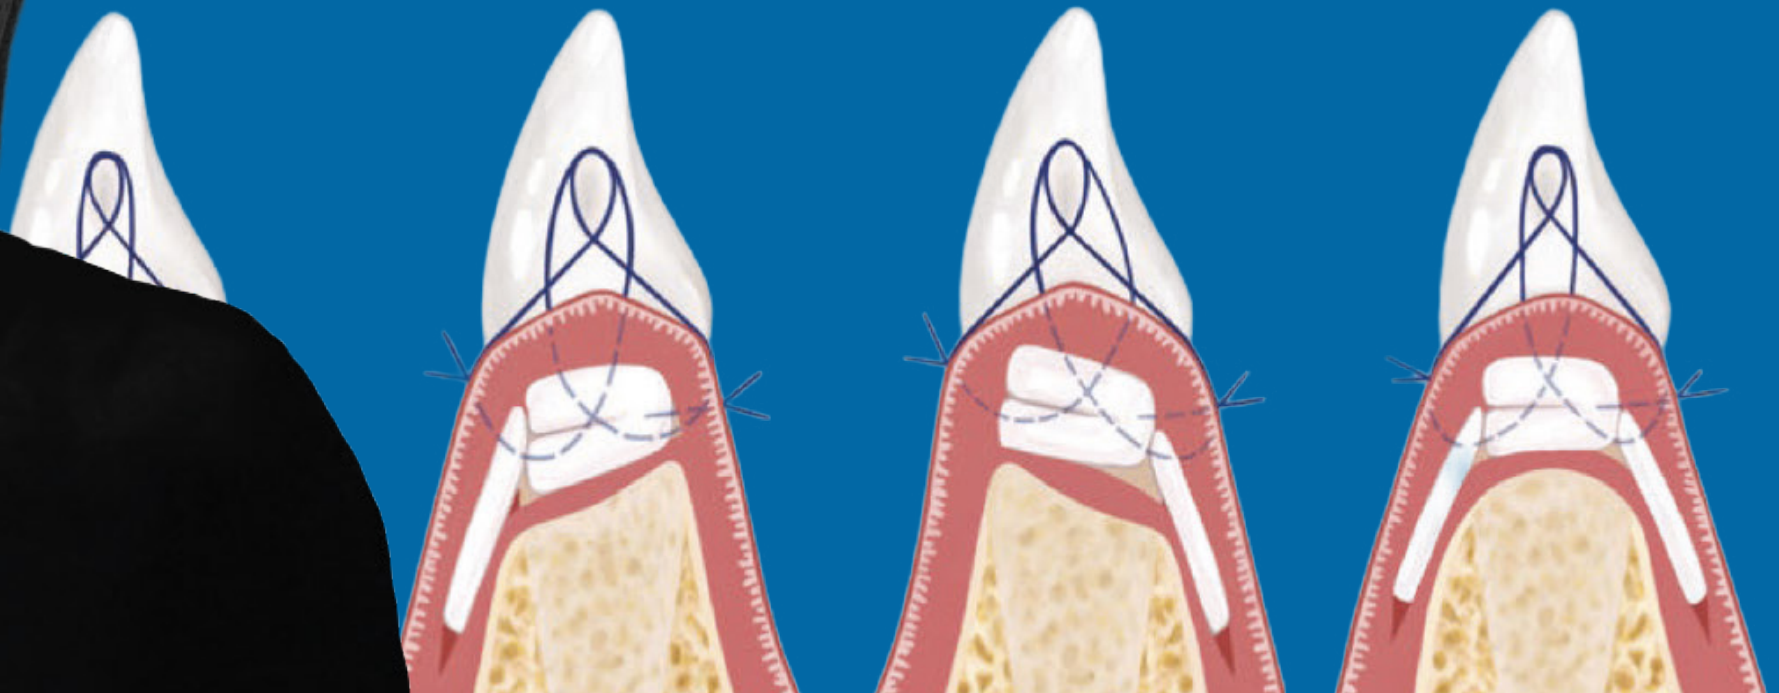

Microsurgical training - 1 h

**Suzuki's papilla reconstruction technique
using a microscope - 2 h**

RASPERINI
REUNION
19-20 JUNE

WORKSHOP

Dr. Emilia Kazarian

18 JUNE | 09.00 - 13.00

18 JUNE | 14.30 - 18.30

**3D TUNNELING TECHNIQUE
USING CLASSICAL AND ALTERNATIVE
GRAFT SHAPE AND PLACEMENT METHODS**

This workshop will be useful for both, beginners and experienced specialists, who need a clear structured scheme and protocols for the microsurgical periodontal work. During the main part of it participants would train a surgical restoration of lost interdental periodontal tissues using a novel 3D Tunneling Technique. The aim of the workshop is to show possibilities to truly get the perspective of what perio is nowadays. It will change the practice and elevate the mindset of every periodontist.

Microsurgical training - 1 h

3D tunneling surgical training on specially designed Bonemodells using a microscope - 2 h

WORKSHOP

Dr. Bryan Po-Jan Kuo

17 JUNE | 09.00 - 13.00 **NEW DATE!**

**BUILDING SOFT TISSUE HARMONY:
PARTIAL-FULL-THICKNESS TUNNELING
AND SUPRA-CRESTAL SLING SUTURE WORKSHOP**

This hands-on workshop embraces the spirit of continuous clinical education by introducing participants to the Partial-Full-Thickness (PFT) tunneling technique combined with the Supra-Crestal Sling (SCS) suture—a novel surgical protocol designed to advance root coverage and papilla reconstruction. Through a structured and practical training program, clinicians will not only refine their skills in flap design, tunneling preparation, graft stabilization, and advanced suturing, but also gain deeper insight into the biological principles driving soft tissue regeneration. The workshop highlights how minimally invasive microsurgery can achieve scar-free, harmonious outcomes in the esthetic zone, transforming the most challenging areas in mucogingival surgery into a predictable clinical opportunity.

Microsurgical training - 1 h

Partial-Full-Thickness tunneling and supra-crestal sling suture surgical training - 2 h

PERIOMANAGEMENT WORKSHOP

Dr. Giorgio Pagni & Dr. Michele Modoni

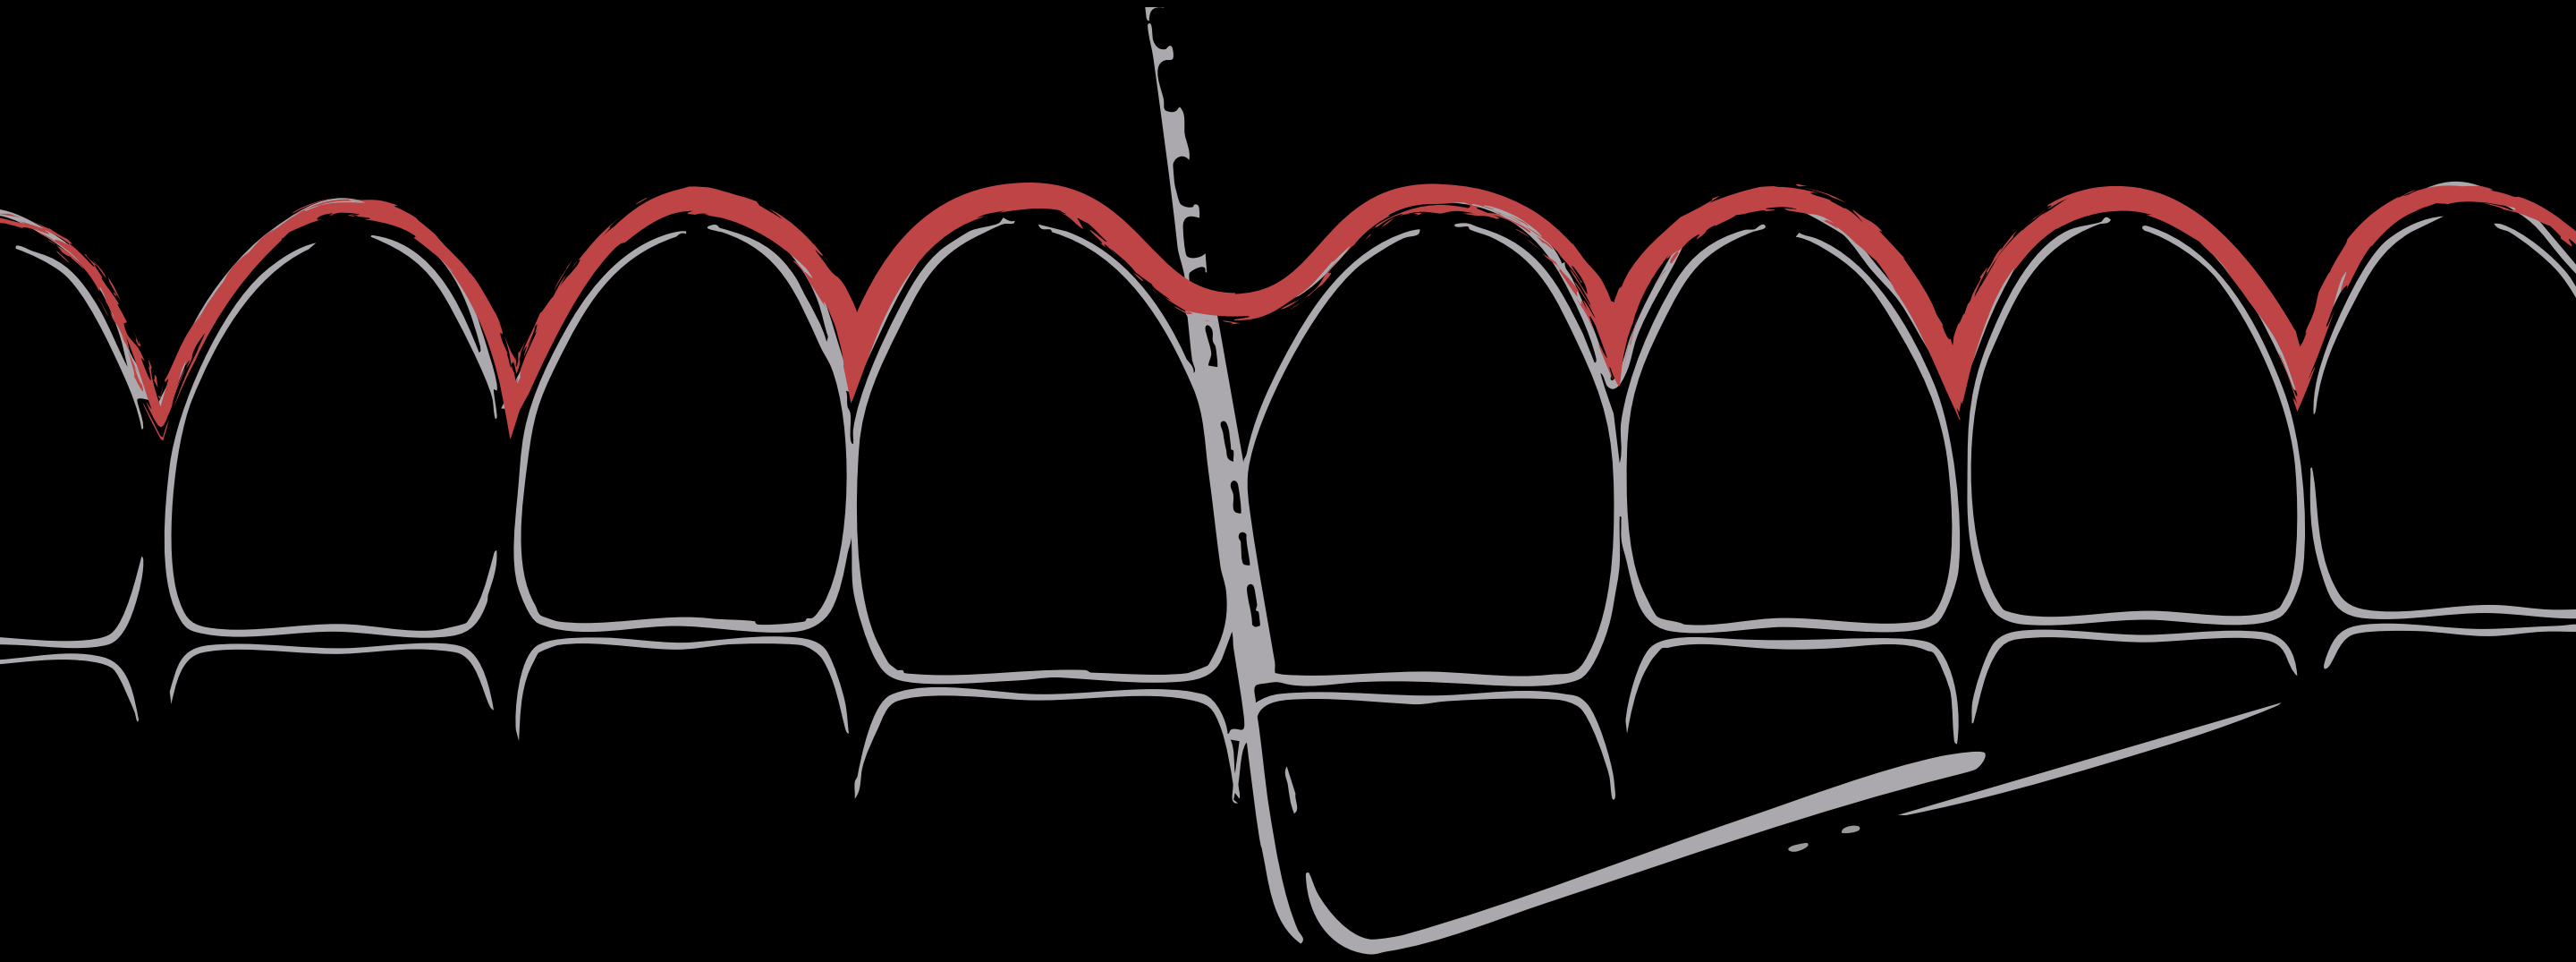

18 JUNE | 14.30 - 18.30 NEW!

**PLAN AHEAD
COMMUNICATE BETTER
WORK EFFICIENTLY!**

The way most dental practices organize and price periodontal treatment is still inadequate. Long-term success in periodontics depends not only on clinical skills but also on the extra-clinical management of the patient. In this half-day workshop, we will introduce an innovative organizational model that redefines how communication and pricing can be used as therapeutic tools. The method positions patient communication as a strategic element of therapy and the fee structure as a powerful medium for clarity and trust. By shifting from a “fee-for-service” approach to a “fee-for-care” perspective, the model enhances patient engagement and adherence, reducing misunderstandings and strengthening the therapeutic alliance. This session will present the core principles of the system, offering participants a new perspective on how organizational strategies can support periodontal care. It will provide the essential framework and inspiration for rethinking the way periodontal treatment is communicated, structured, and delivered.
